

A Glimmer of Hope

The second volume of The Glimmer trilogy focuses on the world of Camborne; torn by war once steel jacketed bullets destroy the stability of a thousand years. As events move inexorably toward the battle for Hamara City, Michael Donovan finds he has more in common with Calariel than just a similarity of features; Pauli takes on the mantle of the Lord Protector as he fights to hold together a fragile alliance of Indian tribes and city militia; and John Blacker discovers a new talent and an unexpected love. All come together in a cataclysmic confrontation in which old certainties are destroyed and new challenges develop as the war reaches its climax.
