

## The Call of Destiny - The Trilogy (The Call of Destiny - Collection)

The Call of Destiny - The Trilogy Collection: The Nemesis of The Worlds + The Shadow of Death + The Return of the Arcane Knight. Vol. 1 - The Nemesis of the Worlds After a long period of wars and famines, peace has finally come to the Kingdoms of the Central Lands. Following the defeat of their King, the demons and half-bloods have retreated to the Wastelands, under the leadership of the Queen and the children of their dead King. The Humans and Elves live quietly, attempting to reconstruct what was lost, unaware that the greatest threat that ever hung over them, a very different evil to anything they have ever known, waits patiently for the right moment to make a move. Five young boys, divided by race but united by destiny, must embark on a difficult task. To successfully accomplish this mission, they must come to understand and accept the meaning of friendship, sorrow and sacrifice, but will that be enough?... Vol. 2 - The Shadow of Death Twenty years have gone by since five young and unheralded heroes freed their land from the threat of the Nemesis of the Worlds. Peace now seems a tangible reality in the Kingdoms of the Central Lands and the entire Talya peninsula, but history teaches us that times of peace always alternate with periods of war, that some sort of evil is always lying in wait, ready to disrupt the life of the righteous. If this evil was only a vacuous shadow, something imperceptible and fleeting, could it really hurt mankind?... What if it was not just a simple shadow, but was instead the shadow of an obscure and vindictive God, if it was The Shadow of Death! Two orphans raised by a priest in a small village, a street kid who thinks only of his own interest, a lazy and cowardly magician and a warrior from the north with a mysterious past... will they somehow be able to halt an evil such as this? Vol. 3 - The Return of the Arcane

Knight How much could a man endure if destiny chose to take from him the people he cared most about in the world? But if was still not enough, and fate took from him even his only son just after finding him again? For the Knight Arcane, Antares Morningstar, the time has come to say thats enough! It is time to come out of hiding, using his real name. He must find his old companions again, those men who believed he had died twenty years ago, and set out with them on the most difficult and impossible mission that they have ever decided to face!
