

Dream Home Profile - Design & Decorate Your Home With More Confidence & Less Mistakes

Dream Home Profile is like getting a Dream Home IQ. In other words, Dream Home Profile is designed to create a summary (or profile) of the look and feel of your dream home. Or, you can think of it as a Snap Shot of your Dream Home. After you complete your Dream Home Profile, you'll have a unique list of things inside and outside of your home; things that are completely unique to you. (I refer to these things as Design Elements throughout the book.) Once you complete your Dream Home Profile, you can use the Design Elements to plan your Dream Home. You can use the Dream Home Profile as a foundation to design, build, buy, decorate and landscape your home, and transform it into the home you've always wanted. The Exercises in the book will reveal your deepest ideas, thoughts and feelings about home. I believe that these things (Design Elements) will make wherever you live, and whatever living space you have, into a place that feels like home. Dream Homes are simply stories - stories about homes you remember, and homes you love they are places that you make feel just like home.
