

## Dropped into Earth (Space War and Survival Book 2)

Sunshine has forgotten all about the past, about what she'd seen all those years back. Now, she is on Earth training to be a Specialist, and her first drop into space is drawing near. She is stubborn, determined, and will do anything to prove that she has what it takes to be a Specialist, a space marine able to protect the weaker race, humans. She gets to prove herself on their first drop to Alpha Moon One. The mission is simple: kill the few aliens there that are causing a disturbance. But something goes terribly wrong, and it's not the freak storm.
