

Ignacio the Dragon

It was said That after the the birth of men in the garden of Eden, a serpent visited The Garden. A dragon of immense power and wisdom. Some said this serpent was the devil in disguise, some saw the serpent as a savior from an unjust master, but what if it were neither. Maybe these Dragons were figments of their imaginations. Maybe they were wise creatures who only spoke to men when they needed to do so. We may never know the answer, but at times information can come from unlikely sources.
