

Chaos Born (Chronicles of Applecross Book 1)

A fresh and exciting debut novel introducing the Chronicles of the Applecross. Lora Blackgoat, smuggler and mercenary, has been laying low after a job gone bad made her a laughing stock in the industry. When a childhood friend turns to her for help, Lora leaps to restore her reputation and starts hunting a killer who is stalking the gas-lit streets. She never expects that her path will lead her to the Order of Guides, a sadistic militant religious organisation - or to Roman, a deadly and dangerously attractive half-angel warrior who also hunts the killer. When Lora discovers that the killer has broken fundamental laws of magic to enter the city, she also uncovers a conspiracy that leads back into her own dark past. Praise for CHAOS BORN: Chaos Born was one of those books that, when finished, I was really happy I found it and read it. I look forward to reading Book 2 Vampire Book Club A fast-paced, well-written urban fantasy with a flawed but charming heroine. Book Thing I am already looking forward to the next installment and I urge fans of the paranormal fantasy genre to give Chaos Born a try. Bookd Out I love me some Urban Fantasy and Rebekah Turner, Australian author, has wowed me with her first instalment in this new series. Novels on the Run
