

## A Time Of Renewal (Thought Notebook Journal) (Volume 2)

Promoting the practice of thinking. This issue is centered on renewal in our lives. Literary and visual artists from around the world depict what renewal mean to them; from photograph to painting to mixed media and the written word. 10% of all sales from this issue get donated to the silent tapes organization. The journal is a unique intersection between science and the humanities encouraging deep thinking to understand humanitys thoughts through study and inquiry. In recording into the notebook these real stories of life and the thoughts we generate about them, we get a glimpse into understanding a great deal about ourselves and society, where our conscious has been and the direction its going. Thought Notebook Journal is based on a true story: humanitys story. This journal is a part of our Human Thought Project allowing us to delve into the minds of humanity and learn more about who we are by documenting into the notebook thoughts and expressions on particular subjects.
