

Cheering for the Children: Creating Pathways to HOPE for Children Exposed to Trauma

Cheering for the Children is a clarion call to all caring people to become cheerleaders for children exposed to trauma and abuse. Author Casey Gwinn, former elected San Diego city attorney and a leading domestic violence professional, explains why childhood trauma should be the preeminent public health issue in America today and how we can all help change the lives of children for the better. In this compelling and well-documented book, Gwinn maps out the massive costs and lifelong consequences of unaddressed childhood trauma through the internationally recognized Adverse Childhood Experiences (ACE) Study and other critical research. Then, using his own personal journey through trauma, lessons learned from leading experts across the country, and poignant real-life anecdotes from survivors, he provides the big strategies and small, practical steps that every parent, grandparent, mentor, caring community member, and policymaker can take to make a difference in the lives of their own children and the hurting children of America.
