When Lou Grahams family is viciously murdered, hes at a loss as to who would do such a horrific deed. As the operator of a small-town playhouse, the aspiring actor has no enemies and his confusion and loss quickly transform into a state of severe depression. His confusion only deepens when a mystery man shows up, posing as the brother-in-law he never had. Is he the killer or something else? The bizzare soon turns to the fantastic when the man offers Lou a job as a time-traveling investigator, tasked with utilizing his skills as an actor to blend into other times, both future and past. As unbelievable as it sounds, Lou finds that time travel is in fact a reality, yet not as its been portrayed in books and movies. Reality, it turns out, is a lot more unbelievable. But now a murder has taken place in the past, one which bears a striking resemblance to the tragedy that befell Lous wife and children. Believing both crimes were committed by the same time-hopping killer, Lou and fellow traveler Willie Simpson set off on a race through the streams of time to identify the killer and stop him before other murders occur. Its a desperate race through parallel time-lines to protect other incarnations of his family from suffering the same fate as his. So hold onto your seats, this whirlwind adventure is about to take off. When the very existence of time is a stake, nothing is held back, and Lou and Willie will do whatever it takes to save time at least time as they know it.
