

## Deadly Discovery (Evolutis Rising Book 2)

The second book in the Evolutis Rising series *Deadly Discovery*, is a technothriller adventure ride through the discovery of space and time travel for Elizabeth Stosak and her cohort, all members of a new species of human, Homo Evolutis. Pursued by paramilitary forces wanting to weaponize their powers, and secret government elements bent on their elimination, she questions the cohorts decision to seek safety by hiding in plain sight. Elizabeth discovers a hidden sect of ancient people who call themselves the Followers the survivors, hiding on earth from a centuries old galactic conflict. Concerned that those who pursue the Followers may discover them on earth, she leads Evolutis on a quest to discover the potential of their new powers and prepare them for the coming conflict.
