

Indian Police

The Hong Kong-based Political & Economic Risk Consultancy (PERC) in a 12-page report on a business survey of 12 economies of Asia released on June 3, 2009 where 1,274 expatriates working in these countries were interviewed showed Indian bureaucracy at the bottom at the 12 position as the least efficient bureaucracy after Philippines and Indonesia in 10 and 11 positions respectively. The report says that working with the countrys civil servants in India is a slow and painful process and it continues to report that They are a power centre in their own right at both the national and state levels, and are extremely resistant to reform that affects them or the way they go about their duties. The cause of the malady in reference to Indian Police is analyzed and remedies are recommended in the article, The Crumbling Steel Frame of India of this volume. The deterioration is a post-independence phenomenon. The once steel frame of Indian bureaucracy of the British vintage gradually crumbled to its extant putridity under the sad auspice of its corrupt and incompetent UPSC (Union Public Service Commission) and the deterioration trickled fast downwards in the last six decades to bring India to this sad state of affairs. This volume is a first hand account of the observations, impressions and experiences of the author as an insider. Naturally, most illustrations in this volume are from Karnataka police where the author served at senior levels for nearly three decades. However, this makes no difference to the over all picture of India as situation is not much different elsewhere. As far as Karnataka police is concerned, in spite of misdeeds of notorious scoundrels like R.S.Chopra, A.R.Nizamuddin and degenerates of the similar ilk, situation is better there than some of the more notorious state police organizations of India. The core weakness in Karnataka police lies in sweepingly

conforming to the putrid system and bad culture against conscience to cover own tracks. It is mere cowardice of mediocrity and gross selfish interests of ignobility and nothing more. Yet, no way can Karnataka police be called as an efficient, healthy and responsible bureaucratic setup yet. Faithful assessment must precede reconstruction. This volume is an effort in this direction. Complacency leads to stagnation and is a dangerous indulgence in a rotten situation like Indias. This volume is intended to breach the vicious indulgence involved and inspire India to its rich potentialities on the way to much dreamed of world leadership. India is a civilization of diversities and a culture of contradictions. Indias is an inclusive way of life. Along its long history, it saw umpteen falls and rises without losing its innate vitality and always rose from worst quagmires unscathed. This resilience of India underscores its unique heritage spawned by its thoughts and philosophies that perhaps are nearest to the true nature of the universe that the scientific world of today is engaged in to probe, discover and formulate as the Grand Unification Theory (GUT). This is the secret of the eternal strength of India. This resilience of India gives hope. The present fall is not forever. Time of revival shall come. India shall see a better system replace the present corrupt and incompetent UPSC and a healthy administrative system replace the extant inefficient and rogue bureaucracy. The nature of the police accurately reflects the quality of democracy entertained by a country. This is true of India and Indian police also. Further, the menace of the current world namely terrorism is increasingly moving the police centre-stage in governance as the sine qua non mechanism for founding peace and safety of the citizens. These factors together render the police and policing the deciding parameter in determining the character of a national life. That is why India must act to bring its police and bureaucracy on right track.
