

Escape from Fear Village

Addison James Gray and his younger brother Mackenzie are about to experience a life-changing journey, beginning when they meet a strange woman at their towns local Halloween carnival. When Mack wakes the next morning, he discovers that A.J. is missing. Strangely, he finds his brothers motorcycle in the garage and his cell phone perched on the mailbox, but there is no sign of A.J. Because his parents are away for the weekend on business, he must figure things out all alone - or at least he thinks hes alone. This is a story of friendship and family, adversity and persistence, faith and courage, and most importantly, good and evil. A.J. and Mack have never known evil before this fateful weekend, but they soon find themselves confronted by pure malevolence. Their enemy not only intends to kill them, but to force them to suffer long before their final breaths. Can the brothers find a way to escape the clutches of evil in time? In order to survive, theyll need to adapt to change, think outside the box, and rely on assistance from unexpected sources. What will they learn along the way? Who will they trust? And who will be alive at the end of Halloween weekend?
