

## The Sea That Overtook Us

In the year 2035, 200 years after World War III, Alic, his girlfriend, Cassidy, and their friends live in Society 2B in The District, surrounded by a Wall of Fear to keep them from the dangers and, possibly, the freedom of the Unknown. Alic is nearing his 16th birthday called the Turning when the government will determine his future path. Before his Turning, Alic wants to have a Last Blast with friends. They hatch a plan to leave the staid Society 2B for the high-tech, party-happy society Society 1A. What happens when the friends try to navigate a tunnel system between the two worlds will change everything.
