

REVEL for Human Relations: The Art and Science of Building Effective Relationships -- Access Card (2nd Edition)

A conceptual and skills-based overview of relationship building in today's world, REVEL for Human Relations: The Art and Science of Building Effective Relationships helps students learn how to communicate more effectively within all of their personal and professional relationships. Employing a three-tiered approach to human relations, author Vivian McCann helps students to understand the psychological concepts that underlie relationships, to build the skills needed to communicate effectively, and to consider the influence of cultural norms and backgrounds throughout the relationship-building process.
