

Trinity Discovered: Book one of the Trinity series

Three very different women, one connection. Ani Walker is your typical everyday human but somehow she has managed to come to the attention of not only an elite group of shifters but also the leader of the vampires! Now there is a race to see who will claim her first and unleash her true potential. Fallon, second in command of the order of the queen, gets to Ani first but there is a complication. It appears the target has become more than that to him and no way in hell is he letting any dirty vampires near her and it's easy to protect her while she's in his bed. Isn't it?

****Warning suitable only for readers over the age of 18 due to many steamy sex scenes and several instances of foul language!***** *****This book is part of the Trinity series. Each book can be read as a standalone but it may not make as much sense so writer advises reader to read each book in order for the best reading experience*****
