

NShalain Troubles - The Colony

Frank, Josef, their wives, and NShalain friends have determined that there is a catastrophe brewing for the world of NShalain in the future. They have started working on a plan utilizing equipment and data left by Franks father-in-law for the event. They run into problems from Earth, which has learned of their existence because of a good deed that Silma and her husband, Shillar, perform. They also run into significant social and political problems on NShalain that eventually leads to war.
