

## The 7th System #6 (volume 1)

In the far future, Earth is nearly inhabitable, and humanity started anew on several far-flung colonies. The new system, composed of both human and alien civilizations, is loosely held together by the brutal Games of Cruden, a bloody battle to the death whose victor becomes the absolute ruler for a period of 490 years. Domonisk was one such ruler, but unlike the others, he was given an experimental serum that granted him immortality. In fear that such a vicious warlord would rule forever, Domonisk was betrayed and overthrown after a mere twelve years. Doomed to eternal exile on the planet Vela, Domonisk's desire for vengeance will never be satisfied; his need to kill never sated. Centuries after his name is forgotten in the 7th System, the legends of the undefeatable Demon God of Vela are known throughout the system. The day will come again, when Domonisk will be free of his prison, and all the planets will once more feel his wrath.
