

Post-apocalyptic Adventures of Ott & Ren: Bay of Wolves

Conan meets Mad Max in this post-apocalyptic adventure. Ott and Ren want to reach Denver for a chance to place in a city sponsored death race that will keep them in food, ammo, and fuel for some time afterwards. Instead, they find themselves on the poisoned shore of what had once been the west coast of Canada with a broken down car. The only way for them to move onward is to infiltrate a cannibal infested island and retrieve the one thing needed to fix their vehicle.
