

Financial Management and Accounting in the Public Sector (Routledge Masters in Public Management)

In light of the worldwide economic crises, the public sector is coming under increasing financial pressure as budgets are reduced on a large scale whilst demands for public services are on the rise. In such austere times managers working in the public sector are confronted daily with targets and demands that are often set in confusing accounting and financial language. In *Financial Management and Accounting in the Public Sector*, Gary Bandy employs a clear and concise narrative to introduce the core concepts of accounting and financial management in the public sector and how to deliver services that are value for money. With a glossary of terms to help managers understand and be understood by accountants, as well as learning objectives and discussion questions, this hands-on textbook will help students of public management and administration to understand the financial and accounting aspects of creating public value.
