

## Sinsationals #0

Sinsationals is the story of seven extraordinary women from disparate backgrounds that find themselves united in a common goal to keep the peace in a lawless world... and to look absolutely fabulous while doing it. They live in a world where literally anything is possible. Superheroes? Robots? Dragons? Zombies? Talking cat people? Nothing is out of the ordinary because the ordinary is anything but. The 34-page issue #0 chronicles the origins of each female protagonist as a looming alien threat plots to overtake the planet. The issue will act as the lead-in to a story arc that will see the girls slowly unite to face this common enemy, save the planet and emerge not just as a team, but a family.

In this maiden voyage for Sinsationals, the seven principal characters are shown in their normal lives before they are thrust into a new world where they have new roles, new responsibilities and must face new dangers, as well as new possibilities. Beautiful, skilled and deadly, the Sinsationals are a powerful group of women, each harnessing a unique subset of abilities that allow them to thrive in their day jobs as globe-trotting supermodels and uber-celebrities working for SINSATIONAL MODELS, the world's premier modeling agency, and even moreso in their unofficial identities as superheroes.

With their strengths, each has unique shortcomings, weaknesses and personal quirks and nuances that the evil alien would-be world overlord, KhnTrra, wants desperately to exploit. Issue #0 focuses on KhnTrra as she considers the beginnings of each member of the Sinsationals: where they came from, how they either found or developed their powers and how they can each be bested.
