

S.P.I.R.I.T: Fire Storm

When Samantha Ricketts finds herself placed in a town half-way across the country, her only worry is how did she get there, but when her life is saved by a handsome and mysterious man, the connection they feel is almost more than she can stand. Zander Smith was only acting on his instincts and training when he moved the dark-haired woman to safety but what he got from his heroics wasn't the distressed woman he had thought he was helping but a fireball of fury that sparked a storm within himself. Together they tap into the supernatural to uncover the mysteries surrounding the strange town they were slowly growing fond of before they became part of its history
