

State-Owned Enterprises in the Middle East and North Africa: Privatization, Performance and Reform (Routledge Studies in Development Economics)

In the rapid world-wide spread of privatization, progress in the Middle East and North Africa region has been markedly slow. This volume argues that a high level of overstaffing in public enterprises and the inability of economies to create jobs fast enough is mainly responsible for this. An in-depth study of the facts and a well-supported conclusion makes this an impressive collection of work on a very pertinent subject.

Untitled - State-owned enterprises (SOEs) are an important feature of the economic landscape in the Middle East and North Africa (MENA) region and yet, their contribution to the limited existing literature on the role of SOEs in the economic development by .
