

Pacific Fire (Daniel Blackland)

Pacific Fire: Another thrilling ride through Greg van Eekhouts wildly imaginative world of California Bones, featuring entertaining new characters and a dangerous magical plot unfolding in Los Angeles. Im Sam. Im just this guy. Okay, yeah, Im a golem created from the substance of his own magic by the late Hierarch of Southern California. With a lot of work, I might be able to wield magic myself. I kind of doubt it, though. Not like Daniel Blackland can. Daniels the reason the Hierarchs gone and Im still alive. Hes also the reason Ive lived my entire life on the run. Ten years of never, ever going back to Los Angeles. Daniels determined to protect me. To teach me. But it gets old. Ive got nobody but Daniel. Ill never do anything normal. Like attend school. Or date a girl. Now its worse. Because things are happening back in LA. Very bad people are building a Pacific fire drake, a kind of ultimate weapon of mass magical destruction. Daniel seemed to think only he could stop them. Now Daniels been hurt. I managed to get us to the place run by the Emmas. (Many of them. All named Emma. Its a long story.) They seem to be healing him, but he isnt going anyplace soon. Do I even have a reason for existing, if it isnt to prevent this fire drake from happening? Im good at escaping from things. Now Ive escaped from Daniel and the Emmas, and Im on my way to LA. This may be the worst idea I ever had.
