

## 50+: The third age (Danish Edition)

50 +, The third age, we young older is a must-read for you who are 50 + and would like to know something about the decade, that you are in: What characterizes it to be a 50 +? What happens physically in the body? Psychologically and mentally? What is this age greatest challenges, and how do you meet these challenges? In 50 + the Danish author and gender debater Bertill Nordahl reviews this exciting, vital and important decade in a persons life. What about the gender: Is it different being a male 50 +? Than being a female 50 +? And what are these differences? And then there are the central, existential questions: What will I do with my life - now? Where will I go - now? Who will I take with me on this lifetravel - now? Bertill Nordahl put sharp questions - and answers just as sharp!
