

Tending the Fire

p> Tending the Fire encourages us to be intensely loyal to ourselves and give our gifts while we are on earth. We are creators, and imagination is one of our God tools. We have a drive to be creative, to partake of our godness through the DNA of every cell. Outside the human body, creativity lives in the astral realm of consciousness. This is a realm of psychic phenomenon, telepathy, and clairvoyance. When a dream or a symbol is speaking to us, we can watch for a gut, heart, or inner-word response. The mind is the thinker, not the feeler. Feeling is a major component in creative discovery. To be a creator is at the heart of deep understanding of our roles in cosmic unfolding. Tending the Fire guides us through ideas, transformation practices, and celebrations to stand in our light and live joyfully.
