

## Rise of the European

For five hundred years human exploration of space has gone largely unchallenged. Now, deep in the ocean beneath the icy crust of Jupiters moon Europa, something is stirring...a power both ancient and wholly alien, moving in the dark places. Its power is unimaginable, its rage inexhaustible and its goal clear; to eradicate humanity. Join six of the Dryden Experiments premier authors as they weave tales from humanitys darkest hour. What will become of the creatures from Sol, faced with the Rise of the European? The Dryden Universe is a vast, sprawling science fiction universe made available for shared use under the Creative Commons BY-SA 4.0 license. Welcome rebel.
