

Fane Forest

I chance a quick look at Myles and Ric before I pick up the tray and walk towards certain death. I say this because its certain. Im offering myself to a group of people that would happily shoot me in the head, given the chance. I decide I really have gone insane. Andie lives on the border of a forest that is imprisoned by humans. Only thing is, Andie isnt human. For centuries her kind has been hunted and after spending her entire life in fear and hiding, its no wonder she yearns for freedom. But freedom is a fickle thing. When Andies father falls ill, she is forced to break the borders of Fane Forest in pursuit of the one creature who can save his life. What she discovers along the way is a magic that has the power to turn blood against blood, throat against throat. Can she protect the biggest secret on earth, and save her fathers life?
