

The Key to Humanity

Created by an advanced civilization, humans have been under their watchful and protective guidance since the beginning of the Human Experiment. Working quietly behind the scenes, agents of this advanced civilization endeavor to guide human development subtly while protecting their secrets from the rest of the galaxy. Mahel, an agent living among humans for over three hundred years, must face the challenges of protecting humanity as the closely guarded knowledge of their experiment becomes known to the enemies of the Varanian Empire and the Key to Humanity could be unleashed on the unsuspecting peoples of Earth.
