

The Lament of Abalone

Three years on from the events of THE RUNESPELL TRILOGY, the young lords of Torra Alta are a little older and, perhaps a little wiser. They will need to be, to face their new challenges... While Spar broods over his stewardship of Necrond, the deadliest artefact in the world, Hal and Brid have become betrothed. But the weakening of Moriggwen, the eldest of the Trinity of priestesses, forces them all to face the future. And so quests must begin - for the Maiden to take Brid's place, for wolf cubs who are vital to the survival of the Trinity, and for the King's new bride. Alone and collectively. The Torra Altans find that they and their world are under threat as never before. They must cheat death itself to survive...
