

## The Shadow, 1941: Hitlers Astrologer (Marvel Graphic Novel)

Who knows what evil lurks in the hearts of men? Times Square, Easter Sunday, April 1941. Amid the bustle of the holiday crowd, a young woman runs for her life. It is a race that will lead from the heart of Manhattan, pulsing with vibrant life, through Hells Kitchen to Lisbon -- final destination: Berlin, Nazi stronghold and center of dark intrigue. As hot gunfire from an alley behind a burly-Q, a cab screeches toward a date with death. Auto chases, motorcycle escapes, and a fantastic battle between U-boat and autogiro over Coney Island! Heroes and villains dance like puppets on invisible strings, never knowing for certain if they be players... or pawns. Behind the action looms the spectral figure of the Shadow, master of men. What webs and toils unfurl from these mysterious gloved hands -- what lives hang balanced between the cold hollow laughter and the blazing .45s? Who is safe, who doomed? Only the Shadow knows.
