

Input-Output Economics: Theory and Applications: Featuring Asian Economies

Thijs ten Raa, author of the acclaimed text *The Economics of Input-Output Analysis*, now takes the reader to the forefront of the field. This volume collects and unifies his and his co-authors research papers on national accounting, input-output coefficients, economic theory, dynamic models, stochastic analysis, and performance analysis. The research is driven by the task to analyze national economies. The final part of the book scrutinizes the emerging Asian economies in the light of international competition.
