

Towers of Dust - A New Generation

Twenty years have passed since the world didn't end. A small group of Left Behinds has managed to forge a place for themselves on an increasingly hostile planet. They have endured heartache and love, trials and jublations. Those who were once strangers to each other have bonded, grown old together, welcomed other survivors, lost friends and family. Through it all they struggle to hold on to the beliefs that are important to them and to teach their young ones about a world that is little more than a distant memory. The time has come when they must choose who will lead them. They must elect someone they can trust to make difficult decisions in times of crisis. Someone who will keep the best interest of the group always in their heart and who will guide them to the future they envision for themselves, their children and the next generation of Left Behinds.
