A young billionaire, a near death experience, powers of telekinesis and telepathy, global bad guys, transformation A night of debauchery and tech billionaire, Patrick Kissing, ODs at a downtown Seattle nightclub. He literally dies only to be resuscitated at the hospital. But hes different... He now has burgeoning powers of telekinesis and telepathy. When his marine biologist girlfriend is kidnapped by a Palestinian arms dealer, whos training dolphins as suicide bombers, hes forced into action. With no help from the police or the F.B.I., Patrick decides to attempt a rescue himself. Bad idea... Within the Palestinians facilities, hes captured and placed in a drug-induced coma by Nova (Felicia Novatna), famed female assassin. In effect, put on ice. His attorney brother, David, quickly forms Plan B by enlisting Andre, a martial arts expert otherwise known in the Seattle media as The Vigilante. Guided by a homing device, Andre finds Patrick and brings him around with an antidote. Now for Jessica. Thing is, theyve found themselves in the middle of a major battle between the Palestinians and the local Korean gang over a double cross. Throw in Nova and youve got quite a heady mix.
