

## Aines Story

At the conclusion of Steenie OShea, her niece, Aine OShea Connolly, demands her own story. The copper-haired, green-eyed, seventeen year-old strolls down Galway Bay, rows the empty curagh out to the white, traveling ship, climbs the rope ladder and peers into depictions of tableaux, each illustrating future scenes. Aine, now 22, follows these four tableau journeys to Belfast, Taos, Crete and Gelati.

In a tale of magical realism, she discovers that five authors have written identical children books in Belfast; that a white dome, mountain city awaits victims of the archaics in Taos; that the archeological site of Knossos holds secrets in Crete; and that a strange design flows through the ancient Gelati monastery.
