

Weekend Cross-stitch Projects: Four Literary Bookmark Patterns

Over two decades of crafting culminates in the unique and eye-catching designs by the artist who publishes under the name CraftsbyCassie. This ebook includes four cross-stitch patterns, each with a detailed image accompanying a quote by Dr. Seuss, Baudelaire, Yeats, or Cervantes. The instructions provide a list of recommended thread colors and fabric, easily readable legends, and patterns in both color and black-and-white versions. The patterns recommend and provide manufacturer names and numbers for DMC thread colors, but any comparable manufacturers threads work just as well. In addition to these four fun and modern bookmark patterns, this ebook also includes step-by-step instructions (with pictures) on how to bind your finished project into a long-lasting and professional-looking bookmark without the hassle of having to sew! These patterns are perfect for the crafter who needs to make a gift for a friend or family member, or who simply wants his or her own bookmark to have personality. With relatively quick projects that can be repeated over time, this ebook makes a great addition to any crafter's library!
