

The Appearance of the Woman

A fantasy grounded in reality. In 1963 when Miss Donna Lawson discovers an unconscious woman on a deserted stairwell at London's Fenchurch Street Station, she calls for help immediately, little realizing that the bizarrely dressed lady wearing late Victorian clothes is about to offer her an experience that will change her perception on life and love. That is if she can shake off the suspicion that she has become the central figure in what could be an elaborate hoax. Her reservations are not made any easier by the sordid and hidden activities of her boyfriend, but at least are eased by the appearance of one good man.
