

# World Robotics: Statistics, Market Analysis, Case Studies and Profitability of Robot Investment, 2005

This annual publication contains comparable international statistics on industrial robotics, as well as on service robots. Detailed statistics are given for 40 countries, broken down by application areas, industrial branches, types of robots and by other techno-economic variables, as well as data on production, exports and imports for selected countries, and trends in robot densities. This edition analyses developments during 2004 and gives forecasts up to 2008. It contains a number of case studies, showing actual robot installations and their effect on costs, production, employment structure and overall profitability.

**World Robotics 2004: Statistics, Market Analysis, Forecasts, Case** The world market fell by 12 per cent as a result of falling demand in all major markets. However, robots did much better than many other similar types of investment goods. What is the forecast for 2005? . The publication World Robotics 2003 Statistics, market Analysis, Forecasts, Case Studies and profitability of Robot **World Robotics 2005 - Google Books Result** El termino Robots de Servicio aparecio a finales de los anos 80 como una necesidad de desarrollar Balaguer et al., 2005b: C. Balaguer, A. Gimenez, A. Jardon Climbing Robots Mobility for . for Europe World robotics 2006-statistics, market analysis, forecasts, case studies and profitability of robot investment 2006. In 2004, again 17 per cent more robots were sold than in 2003. . The publication World Robotics 2005 Statistics, Market Analysis, Forecasts, Case Studies and Profitability of Robot Investment as book is available, quoting Sales No. GV. **World Robotics 2004 : Statistics, Market Analysis, Forecasts, Case** Oct 1, 2002 2005, the world market is forecast to grow by an annual average of 7.5%. If robots are so profitable why is there not an even stronger rush to invest? Robots .. 2002 Statistics, Market Analysis, Forecasts, Case Studies and. **World Robotics 2004: Statistics, Market Analysis, Forecasts, Case** There is therefore a need for robots in recycling and demanufacturing.
