

Zombie Park (The Z-Day Trilogy) (Volume 1)

TAKE THE BOOK JURASSIC PARK - REMOVE THE DINOSAURS - REPLACE THEM WITH ZOMBIES Ben Cutler just wants an honest way to make a lot of money! Unemployed and on the short end of the employment stick, he knows his chances of getting a traditional job is slim to never. Ever resourceful and always a forward thinker, Ben comes up with a brilliant ideaZombie Park! Create a park with zombies, sell tickets and people will come by the hundreds. To his surprise, one of the richest men in the world backs his project and makes Ben an instant millionaire! Scientists Nicholas and Kathy Hollman have been commissioned by General Wilbur Poe to create smart zombies to be used on the battlefield instead of live soldiers. With glory in his eyes, Nicholas is determined to not only create the formula, but cut his wife out of the equation and take all the credit himself.

Unfortunately for Nicholas, Kathy is the brain behind everything they do. Robert Forenstein has found the perfect cover for the smart zombie project in Ben Cutlers Zombie Park. He and General Poe will make America the first country to use zombies as weapons of mass destruction and make billions in the process! As with all plans, everyone has their own agenda and the Zombie Park project is no different.

The plan rapidly unravels as Nicholas botches the experiments and is inadvertently creating an army of out of control zombies. With a trail of bodies in their wake, neither the Hollmans nor Forenstein realize the true motives behind General Poes zombie armyand it aint to save the world! Zombie Park is phenomenal! I dont even like most zombie books because they dont make a lot of sense, but this one held grabbed my attention and wouldnt let go until the very end! I hope you have part two ready because readers are going to beat down your door to get the next installment! This

book is crying for a movie adaptation!
